The sustaining value for hardest work as well as wonderful health bringing shown better than in the case of a Colorado man who received an injury to the throwing himself backward and falling upon him. He says: "For II years I suffered untold agony from eating, any food distressed me beyond description. "At times I was able to work but this

me an appetite which I tried to satisfy with the common and substantial fare which is prepared by the average farmer's wife, but almost immediately after the meal I would be seized with cramps and convulsions so severe that my life was desprired of. Only the best medical skill and careful nursing could save my life at these times. The injury had caused strictures and adhesions in the stomach and intestines which the grough food could not pass through, thus causing obstruction of the bowels which

These attacks occurred with great very weak, my pulse slow, I had lost much flesh and one of the best surgeons In Denver told me I must be operated appon at once in order to save my life He said I would surely pass away in one of these spells unless I submitted to the

to diet for some time until the inflammation had subsided and I was able to move other attack. After one of the most

of its action on my hours

"And now at this writing more than a year has passed away since my last sick spell for I have not had one since I commenced cutting Grape-Nuts. I am workmen in the garden and on farm, do everything and anything that is required of the farmer-ploughing, hosing or pitching bay. I never have any more pains,

in fact I can almost forget my injury. "When I come home from market a saucer of Grape-Nuts is my breakfast and I can then go to work and feel that I can live and be as other men again. There is no other feeling like getting back Wright, Bert Worden Whitlock,

"I will give the physicians' names who Good food that can be digested will
